

Dear Sir/Madam,

Fast Quotes

Via our website www.polytra.be you can now send all your rate enquiries to: fastquotes@polytra.be. We guarantee to return you an offer for air or sea freight within the shortest delay.

Air freight

Jet Airways will commence daily flights from Bangalore to its European hub at Brussels by end of this month. The carrier should be able to offer around 10 to 12 tonnes of belly hold cargo on each flight.

Number of ocean vessel accidents on the rise

In 2007 the number of vessel accidents was on the rise again. Over 1000 serious incidents were reported, following figures announced on the yearly conference of the International Union of Marine Insurance, held in Vancouver. Due to the increased costs for reparation, the increased value of the vessels and bigger risks due to the higher loading capacity the need to insure your shipments against the risks of transport is needed. Polytra offers a comprehensive insurance coverage at attractive rates. Please contact Mr Geert De Wilde for further information at +32 3 205 04 56 or gdewilde@polytra.be

Sea freight

Since October 1st, 2008 (arrival day) shipping lines have changed the level of THC in all European Ports. Whereas before the Terminal Handling Charges were the same for all conference carriers on the Far East and India/Pakistan trades, every single carrier has now determined its own THC. We will charge our customers the THC as per outlay depending on the ocean carrier used. You will find in a separate document the current surcharges and THCs.

CAF and BAF are invoiced since October 1st (departure day) according to the individual tariffs set by the shipping lines. You will find a summary in a separate document attached to this mail as well as on our website.

CILF 2008

Polytra will be present at the China (Shenzhen) International Logistics Fair - November 7-9
More information: www.scmfair.com/en/index.asp

Best regards,

Polytra International Logistics nv
