

Dear Sir/Madam,

Green Logistics

It has always been a challenge to find ways to act environmentally-friendly while cutting the end-cost of the product, or at least increasing the end cost for the consumer by as little as possible. In a drive to meet those expectations, moving cargoes away from the highways has become reality! On long haul trajects within Europe - mainly due to sky-high fuel surcharges - intermodal traffic is on the rise.

Polytra and Tailormade Logistics have joint hands and are offering today solutions to "clean-up" your supply chain from and to Scandinavia. Substantial savings can be generated by using short sea feeders from several Western European origins to different Scandinavian ports.

REDUCTION in FUEL and BUNKER surcharges

November will be trend breaking with a substantial reduction in Bunker Surcharges (BUC or BAF) on sea freight and a reduction of fuel surcharges on road haulage. A further decrease is forecasted for December.

AIR FREIGHT from NEW YORK to BRUSSELS

Polytra has regular consolidation flights from New York to Brussels.

Winter Surcharge St. Petersburg

Due to increasing costs related to the ice conditions prevailing in St. Petersburg are during winter, several carriers have announced the introduction of the Winter Surcharge (WSU) of EUR50/USD75 per TEU. This surcharge covers all expenses from seasonal operational difficulties and will be applied for all cargo loaded at or destined to St. Petersburg as from December 1 until March 31 2009.

CILF 2008

Polytra will be present at the China (Shenzhen) International Logistics Fair - November 7-9
