## Forward-thinking

With links to the original Grisar and Velge Company founded in 1816, POLYTRA calls upon the strength of a tradition spanning nearly two centuries. Today POLYTRA prides itself on the wide range of services it continues to offer its ever-expanding clientele. Our proven expertise in the industrial, project & engineering, mining and international logistics sectors means we have all the flexibility experience affords in finding the right solution to your logistics requirements.

Besides a world-wide network of agents, POLYTRA operates its own offices in the Democratic Republic of Congo and Zambia. These offices are managed by our own staff and assisted by a skilled and motivated team of local employees.

Reap the benefits of our experience.

### Industrial

POLYTRA forms the vital link between production and sales for global leaders in the industrial chemicals sector on six continents. We can respond quickly to even the most complicated demands with full-service solutions including inland transportation, customs clearance, forwarding and track and trace services. With online links to your ERP system, we can offer our customers even faster and more efficient service.

### Projects & Engineering

Our solid international network of expert local partners consistently ensures reliable and punctual delivery of all your cargo. POLYTRA is the right choice for coordinating your project's logistics requirements from the feasibility study up to and including offloading, delivery and assembly. Our flexible contractual packages are adapted to suit any operation, large or small, based either on a lump sum, tonnage, cost plus fee or any other tariff basis.

### Mining

POLYTRA's extensive experience with industrial equipment and turnkey projects makes us the obvious choice for regular and repetitive commodities transport to and from overseas destinations. We can also design door-to-door packages for specialist commodities such as cobalt concentrates, limestone, quicklime, etc. Our full range of maritime options are complimented by complete road haulage and railway connection services ensuring maximum flexibility and cost-efficiency.

### International logistics

Combining personal service with state-of-the-art technology, POLYTRA has both the strength and flexibility to provide punctual and cost-effective logistics flow management adapted to your individual requirements. Our comprehensive range of services includes freight forwarding (sea and air), customs brokerage, process management, European distribution, warehousing, etc.
