

Dear Sir, Madam,

The world is changing rapidly, volumes transported have dropped the last month with 10- 20% for both air and sea freight on a global scale ! Shipping lines are forced to cut back their capacity by deploying less vessels on most of the trades with less services, departures, longer transit times and port rotations as a direct consequence.

COME AND MEET US IN MUNICH! May 12th till May 15th 2009

Polytra will be present at the **Transport Logistic Munich** fair.

Every two years it brings the “who’s who” in the industry together in Munich for a unique exhibition—with innovative solutions and products for the entire value-added chain in the transport, logistics and telematics sectors.

In 2007, 1,582 exhibitors from 57 countries participated in the fair to present their latest developments to 47,636 highly qualified trade visitors from 118 countries, make contact with decision-makers in all sectors of the logistics industry and secure themselves a valuable know-how advantage.
